Smart City Smart Strategy Roland

The Austrian capital Vienna again tops the Smart City Index, Roland Berger's analysis of 153 cities around the world. Second in the ranking is another European city, London. On average, however, it's mainly Asian metropolises that demonstrate the most compelling Smart City strategies. Remarkably, 90 percent of the analyzed cities still do not have an integrated strategy.

Smart City Strategy Index: Vienna and ... - Roland Berger

Vien- na, a city of 1.74 million inhabitants, has a well-struc- tured smart city strategy. It also focuses on digitization in other governmental guidelines and directives, such as its strategic land-use plan and its transportation plan. The city lays out clear short-term, medium-term and long-term goals for digitization.

Smart city, smart strategy - Roland Berger

In our latest Think:Act publication "Smart city, smart strategy" we navigate technological complexity by shining the spotlight on 87 metropolises around the globe and looking at how cities are embracing the smart revolution – and the multi-million dollar market it has created. The survey results have taken us by surprise.

The rise of the smart city — Roland Berger

That's why Roland Berger has developed the Smart City Strategy Index (SCSI), which measures the compre-hensiveness and ambition of urban centers against the key ingredients of a Smart City. Our first version of the SCSI was published in March 2017 and analyzed the plans of 87 cities. But with Smart Cities advancing so rap-

The Smart City breakaway - Roland Berger

According to the Smart City Strategy Index (SCSI) by Roland Berger, which measures the comprehensiveness and ambition of urban centers against the key ingredients of a Smart City, only 153 municipalities around the world have an official smart strategy.

A good strategy and strong implementation build a Smart City

The result is a comprehensive picture enabling Roland Berger to compare different regions – and describe the opportunities for utilities in detail. Smart City is a collective term for holistic development concepts aimed at making cities more efficient, technologically advanced, greener and more socially inclusive.

Smart Cities: A big opportunity for utilities — Roland Berger

No problem; there's a smart city solution for each of these objectives. According to the 2019 Smart City Strategy Index (SCSI) published by global consultancy firm Roland Berger, successful smart cities tend to have one thing in common: a sound strategic approach. This ensures the integration of different strands and avoids ad hoc solutions.

BR Cover Story | Bucharest Embraces Its Smart City Future ...

Urban administrations rely on the support of competent partners for implementing their Smart City strategies. In particular, Europe's medium-sized cities (between 100,000 and 500,000 residents) hence constitute an interesting market for communal companies, such as public utility companies and local energy companies: In Germany alone the annual budget for investments in Smart City ...

Smart Cities — Roland Berger

Urban centers thus need to think integrated if they want to link up individual actions into a successful Smart City strategy. This is one of the findings of the second Smart City Strategy Index, an analysis of 153 cities around the world conducted by the experts from Roland Berger. Vienna tops the index for the second time running.

Smart City Index: Vienna and London lead ... - Roland Berger

In Roland Berger's second smart city index, 90 per cent of cities do not yet have an official and integrated smart city strategy Vienna is ranked top because of its integrated framework and strategy Vienna has come out top of a comparison of smart city strategies ranked against 153 cities around the world, ahead of London.

Vienna ranked top for smart city strategy - Smart Cities World

Developing a Smart City Strategy Defining the smart solutions relevant to a city involves studying the actual interactions that citizens have with the city, leveraging the city's natural strengths, and co-creating the smart city vision and roadmap to align all constituents. 3. Smart Clusters & Innovation Districts

Top 50 Smart City Governments

The index, compiled by experts at strategy consulting firm Roland Berger, analysed 153 cities with a published official smart city strategy in place; filtered out from the over 250 cities identified by analysts as having "openly accessible smart city strategy-related documents".

Smart City Strategy Index topped by Vienna | Government Europa

This is one of the findings of the second Smart City Strategy Index, an analysis of 153 cities around the world conducted by the experts from Roland Berger. Vienna tops the index for the second time running.

Smart City Strategy Index 2019: Vienna leads the worldwide ...

Tying with Chicago and slipping in only a single point behind Vienna, Singapore took second place on Roland Berger's recent Smart City Index. I It was also named 'Global Smart City – 2016' by Juniper Research, for its "fixed and cellular broadband services, city apps and strong open data policy".

Portraits of Leading Smart Cities | Roland Berger

The data speaks for itself (excerpt from Roland Berger's "2019 Smart City Strategy Index") Out of 500 cities with a population greater than one million, only 49 (10%) have a smart city strategy. Just 153 cities in the world—both large and small—have published a smart city strategy (approximately 24% in North America).
