What's my car worth?

Your car battery is pretty old. Replace your car battery every two to three years - depending on how many electrical components you have in the car. Drivers usually opt for car battery replacement every three years. Others change it more frequently because their cars have more electrical parts, ...

7 signs you need a car battery replacement

If your car is an older upmarket model, does it make sense to renew the COE? In general, older upmarket cars tend to feature larger engine capacities, and more electronic gizmos. A larger engine would attract high road taxes while consuming more fuel, with a greater chance of electrical gizmos failing and replacement parts not being as readily available.
